From Two Wires to No Wires

More than a programmer. More than a meter. The ICD-HP Handheld Programmer is the indispensable field tool for the decoder professional.

This industrial grade outdoor instrument saves installation and diagnostic time, and helps you get even more out of your Hunter decoder systems.

Using innovative (what else?) wireless induction, the ICD-HP permits a full range of programming, diagnostic and operational features, without removal of waterproof connectors. The programmer's induction probe communicates with Hunter decoders through the decoder case—wirelessly.

Packaged in an outdoor carrying case, this complete kit includes probes, induction cup, cable, USB power cable for bench use, and 4 AA batteries for field work.

Wireless induction cup
Allows all functions in field, without disconnecting decoder or traveling back to controller

Features & Benefits

- **Set and re-write decoder station numbers** Change any station number in the field, without disconnecting decoders
- **Assign station numbers in any order (multi-station decoders)** No need to program sequentially—even skip station outputs for future expansion
- **Turn stations on/off at the valve box** Activate valves, view current draw, check solenoid status
- **Sensor tester** Check Hunter Klik and Flow Sensor inputs and outputs
- **Multimeter functions** Check line voltage and other key readings in the field

ICD-HP

Gain wireless, handheld programming and diagnostic capabilities for Hunter ICD and DUAL® decoders.

KEY BENEFITS

- Program or re-program decoder stations, whether new or installed*
- Program any station numbers in any order, or skip stations for future expansion
- Simplifies setup and diagnostics for sensor decoders
- Sensor test functions for Clik and Flow sensors, plus built-in multimeter
- Communicates with decoder through plastic case: wireless electromagnetic induction saves waterproof connectors
- Compatible with Hunter ICD, DUAL, and Pilot® series decoders
- USB powered for shop or office use; 4 AA batteries for field use
- All test leads and cables included in durable, foam-padded carrying case
- Turn decoder stations on and view solenoid status, current in milliamps, and more
- Waterproof programming cup
- Backlit adjustable display
- 6 operating languages

* **Note:** ICD-HP is not compatible with EZ-1 decoders

ELECTRICAL SPECIFICATIONS

- Power input: 4 AA batteries, or standard USB connector (included)
- Communications: wireless induction, range 1"
- Fused test leads for unpowered decoder functions

APPROVALS

- FCC, CE, C-tick

ICD-HP	
Model	Description
ICD-HP	Wireless handheld decoder programmer, includes all test and power leads, programming cup, and rugged carrying case

ICD-HP

Height: 8¼"
Width: 3⅞"
Depth: 2"

Packaged in an outdoor carrying case, this complete kit includes probes, induction cup, cable, USB power cable for bench use, and 4 AA batteries for fieldwork.
